Continuation Sheet (PTO-303)

Application No.

The objection against claim 28, as set forth in the Office Action mailed on 6/21/2004, has not been responded in written by the applicant. The phrase "or more" in the limitation "the ozone:TEOS ratio is changed over a period of about 30 seconds or more" renders indefinate due to lacking of a defination of an upper limit and is not supported by the originally filed specification. The specification, on page 6, at lines 1-2, merely states "the ratio-reducing step is typically performed for about 30 seconds after the reentrant cavities have been smoothened out." It says nothing about any range beyond 30 seconds. By reciting "30 seconds or more" would also raise enablement issues.
